

# RHIZOPON® Rooting Hormone

## For Maximum Propagation Production

- Rhizopon is used by horticulturalists worldwide to root an estimated **20 billion cuttings** annually
- Rhizopon has international registrations and recognition
- Rhizopon products are the world's oldest plant rooting products in continuous use since 1939

## RHIZOPON® AA Dry Powder Rooting Hormone

**A Convenient, Ready-to-Use Compound to Propagate New Plant Material**

**Three concentrations are offered for propagating the broadest range of plant material.**

- **Rhizopon AA #1-** for use on home garden, tropical, foliage, greenhouse and nursery plants including herbaceous and soft-wood cuttings.
  - **Rhizopon AA #2-** for use on herbaceous, greenwood, soft-wood and hardwood cuttings.
  - **Rhizopon AA #3-** for use on greenwood, softwood and hardwood cuttings, including the more difficult to root cuttings.
- The Easiest Product to Use:** Simply dip in Rhizopon powder, Tap off excess, and Plant the cutting.

Rhizopon AA Rooting Powders  
are available in 1 lb. and 25 lb. containers

All Rhizopon Products are the only Rooting Hormones with a "0" hour Restricted Entry Interval (REI)

## RHIZOPON® AA Water Soluble Tablets

**The Most Versatile Rooting Compound for Many Applications**

**Rhizopon AA Rooting Tablets are formulated to be soluble in water**

They are available in a pre-dosed tablet form for ease of making fresh solutions daily for several methods of application and uses.

- **Spray Drip Down Cuttings after Planting** - Spray evenly until run-off drips down cutting into the media.
- **Total Immersion** - Completely immerse cuttings for a few second before planting. Allow solution to dry before watering.
- **Basal Immerse Method** - Immerse basal ends of cutting for 4 to 12 hours.
- **Root Regeneration of Transplants** - When transplanting, apply as soil drench to increase root mass and regeneration.
- **For Bare Root Plants** - Treat by immersing roots in Rhizopon solution.
- **Improve Transplanting** - Apply as soil drench to plants in root balls or plugs.
- **Enhance Root Mass of Growing Plants** - Apply as drench or foliar spray.

**Complete directions are provided on each package**

Rhizopon AA Water Soluble Rooting Tablets  
are packed in 20, 200 and 2,500 tablet containers
